MVE 4th grade Continued Learning for April 13-24

Checklist for Mrs. Shrum and Ms. Whitefield

Parents and students, since learning was paused last week (April 13-17), we are giving everyone another week to finish these lessons. The lessons on the document are the SAME as last week. These lessons are due on April 24. *At the bottom of this document are optional activities that can be done when the required lessons are finished.*

Reading:

1. Read the text "Disaster in Space". The text can be found here on the Storyworks website. The class code for the website is **topflag4**. In the search bar on the website, type in "Disaster in Space", then after you click on the story, click "Read the story". You can also find the text here in PDF form.

   ***Students, I have TWO ways you can complete these activities. You can download and print the activity OR you can complete the activity completely online in a google form. Links are provided below.**

   a. As you read the text, please complete the activity Read. Think. Explain.
   Click here to download and print the activity.
   Click here to complete the activity in a google form.

   b. After completing the activity, please complete the "Disaster in Space" quiz, all 10 questions.
   Click here to download and print the quiz here.
   Click here to complete the quiz in a google form.

2. Complete 2 **assigned** iReady lessons of your choice.

3. Read 20: If any of your reading or Social Studies assignments take you 20 minutes or longer, then you can write those down on your Read 20 log.

Optional: Respond to your daily reading. Write a summary about what you have read this week.

- Draw a picture of your favorite scene in the book, and write why.
- Describe and illustrate the main character. What do you like about the main character? Dislike?
  - **If** you complete these, send pictures of them to your reading teachers! We'd love to see them!

Writing: I'm changing the writing up this week!

1. Click on this link to download your writing activities. You need to complete TWO writing activities by Friday. You can write them on notebook paper, and take a picture to email me. You can type them, then email me the document.

Click here for the writing checklist/rubric and sample essays.

Social Studies: Complete Week 20 Studies Weekly text and quiz.

1. Go to www.studiesweekly.com. Your username is **your iReady username**. The password is **1234**. Click on the Tennessee Fourth Grade Studies Weekly – Colonization to Reconstruction publication. Click on: Week 20- The North. Read through each text (or have it read to you), then answer the questions at the bottom of the screen. There are optional activities you can do, but they are not required. The optional activities may help you on the quiz though.

2. After you read through the magazine, take the quiz. Here is a pdf of the text so you can use it while you take the test. Either have the text printed out during the quiz, or have the text opened up in another window.

3. After you take the test, it will give you a score. That score is NOT accurate. Once I grade your written responses, then you will get your final score.

Math

This week you will be working on Lesson 27 "Line Plots." You will not be doing all the math lessons in this section. You will need to complete workbook pages 299-304 in the Practice and Problem Solving Book only. The link below will help with math lesson 20.

For a refresher on Line Plots, check out the study jams below.
http://studyjams.scholastic.com/studyjams/jams/math/data-analysis/line-plots.htm

Make sure you complete 2 iReady lessons, once you have finished the Line Plot assignments.

Science

Number one rule for this activity, think safety first. Make sure you recruit an adult to help you. Your goal is to pick one of the experiments on the Nat Geo link below. There are 18 to choose from, just pick one. For your work, take a picture of the experiment (it can be before, during, or after) and send it to me. Have fun!

https://kids.nationalgeographic.com/explore/science/science-lab/

You will also need to complete Week 5-Physical Science-Energy on www.studiesweekly.com. Your username is **your iReady username**. The password is **1234**. Click on the Tennessee Fourth Grade Science Studies Weekly – Exploration. **Click on**: Week 5-Physical Science- Energy.

Read through each section of the text. Feel free to use the read aloud option at the top. Do **NOT** complete the "**Measuring Temperature and Energy Transfer"** experiment. You can still read this section and answer the questions at the end to get your coins. Feel free to play the "Misspelled" game. When you complete all the sections, take the test. Send me the score that you make.

***What is due by April 24 for Mrs. Shrum's class?** If assignments were submitted through Google forms, Mrs. Shrum should have them. If assignments were printed and filled out, take pictures of assignments and send to Mrs. Shrum through Class Dojo or email shrum_h@hcde.org. If writing was typed, email to Mrs. Shrum.

***2 completed iReady lessons**
***Disaster in Space Read.Think.Explain. Activity**
***Disaster in Space Quiz**
***2 short essays responding to the picture prompts**
-If you write the essay, please email me a picture of your essay.
-If you type the essay, please email me the essay.
***Social Studies: Week 20 Studies Weekly Online Quiz Completed**

***What is due by April 24 for Ms. Whitefield's class?** Take pictures of assignments and send to Ms. Whitefield through Class Dojo or email whitefield_k@hcde.org. Or, students can type their assignments and they can email Ms. Whitefield.

***2 completed iReady lessons**
***Week 5 Science Studies Weekly text and test**
***Picture of Science Experiment**
***Practice and Problem Solving WB Pages 299-304**

****
