

The screenshot shows a web browser window with the URL [scootpad.com/teacher/dashboard](https://scootpad.com/teacher/dashboard). At the top, there is a progress bar with four steps: Classroom (checked), Curriculum (checked), Students (3), and Done (4). Below this, the text reads "Next, let's enroll students into this class...". There are three options for enrollment: "Add new students" (unchecked), "Search from your school directory" (unchecked), and "Have students self-enroll" (checked). Below these options, it says "Have your students enter this CLASS CODE to enroll in this classroom!". A large box displays the class code "702398". At the bottom, there is a "Continue" button and a small text box explaining self-enrollment: "What is self-enroll? Self-enroll is to let students enroll themselves using their Google account or their existing ScootPad account."

Dear Students,

This year we're using an exciting learning platform called **ScootPad**. ScootPad helps personalize enrichment, remediation and mastery for each of you in Math and ELA. It's free and setting it up only takes a minute.

Follow these instructions to self-enroll to my classroom:

- 1) Visit: <https://www.scootpad.com>
- 2) If you have a Google account, click Sign Up with Google.
- 3) If you have a Clever account, click Sign Up with Clever.
- 4) Choose Student as the account type and enter **702398** for Class Code.
- 5) Once logged in, you can access your classroom from your dashboard

Thank You!
